ICE GUIDELINES

By choosing to participate at Three Pines Ice Rink or any ASA-affiliated venue, you acknowledge that all skaters skate at their own risk!

To ensure the safety and fun of your fellow skaters, we ask that you remain mindful of the following standards during your visit:

1. Be kind to the ice. No gouging, chipping, or kicking holes in the ice. Please report any malformations to the front desk staff or rink administration.

2. Share the ice! No chain skating, sitting, or excessive crowding during public sessions.

3. Go with the flow. No reckless skating or horseplay. This includes activities such as excessive weaving, stick or puck play during public sessions, and chasing games like tag.

4. Watch out! To allow skaters easy access to and from the ice in the case of an emergency, stay clear of the rink's entry and exit doors to the ice.

5. Fuel up before you skate. Enjoy any of our affordable refreshments in the designated seating areas or lobby, and refrain from bringing food or drinks onto the ice.

Please refer to the various signage around the rink for a full list of our ice and facility rules.

COMPETITION GUIDELINES

As an officially sponsored venue for ASA competitions, Three Pines Ice Rink mandates and espouses the American Skating Association's Code of Conduct for all residential and visiting competitors and staff.

1. Our employees are mandatory reporters of ASA rule violations, including but not limited to the following:

A. Costumes must follow ASA regulations. No capes, trains, or otherwise detachable parts may be present on a skater's person during competition. A skater's body must be at least 50% covered while on the ice, and their costume must not have any words on it nor be excessively gaudy.

B. While the rink does not require drug tests prior to competing, competitors found with or using any controlled substances will be disqualified from all ASA-sanctioned competitions for one year and will face an internal tribunal concerning their membership.

C. Abuse, hate speech, and harassment of any kind will not be tolerated. Skaters, coaches, and judges are all expected to maintain a strict level of professionalism with all who attend ASA functions.

D. Anyone found committing or corroborating with plans to commit fraud, extortion, or bribing in order to affect competition results will immediately and permanently have their membership revoked. Local authorities will also be notified.

For the full list of all ASA rules, regulations, and guidelines, contact an ASA official in your area before checking in with the front desk.

2. Competitors and judges are required to register with our online portal in order to participate.

When setting up an account with us for the first time, be sure your username is ASA compliant or you may be removed from the system.

ASA usernames should be six characters consisting of your first initial followed by the first five letters of your last name. If your last name contains fewer than five letters, fill the space with the first number(s) of your ASA membership ID. If your username is taken, replace the last character(s) with the first of your member number until unique.

EXAMPLES:

Joseph Pack, ID 1220... → JPack1

John Curry, ID 3819... → JCurry

Jeanette Curry, ID 2190... → JCurr2

As soon as you set up your username, be sure to set up a password and a password hint.

3. ASA memberships must be in good standing in order to compete in ASA-affiliated competitions.

To remain in good standing, membership dues must be paid in full and the member must not have any active infractions on their account within the year of the competition. Local competitions do not require membership with the ASA.

THE ASA SCORING SYSTEM

In 2007, the ASA officially departed from the old 6.0 system and implemented new proprietary scoring regulations unique to the ASA and not used by any other skating organization in the world. Judges grade the execution of each individual element of a program on a scale from -5 to +5, with 0 in the middle.

THREE PINES QUICK REFERENCE GUIDES

COMMON TERMS

AXEL

A figure skating jump where the skater takes off from the forward outside edge and lands on the opposite foot's back outside edge. Named after its inventor, Axel Paulsen, this jump is one of the more difficult ones to master and is the only one that starts from a forward position.

BACK SPIN

An upright spin where the clockwise spinner rotates solely on their left foot and the counterclockwise spinner rotates on their right, both in the direction of a backward circle.

CAMEL SPIN

This is a spin done with the skater's upper body and free leg horizontal. The form is similar to that of a Spiral.

DEATH SPIRAL

A pair spin in which one partner does a back outside pivot while holding the other partner's hand and lowering them such that they will glide on one foot almost parallel to the ice.

FLIP

A jump during which the skater takes off from the back inside edge of their skate and lands on the back outside edge of the skate on their opposite foot.

COMMON TERMS

GLIDE

A held movement on the ice either forward or backward with one or both feet.

LIFT

A lift is a move in pair skating in which one partner lifts the other above their head with arm(s) fully extended.

LUTZ

A toe pick-assisted jump with entry from the back outside edge. Bonus: A "flutz" is a failed lutz where the edge changes to an inside.

SALEHOW

A jump that takes off from the back inside edge of one foot and lands on the back outside edge of the other with at least one half rotation in between.

SPIRAL

A figure skating element where the skater raises their free leg at or above their hips while gliding. The form is akin to an arabesque in ballet.

SWIZZLE

A two-foot locomotion by an in-and-out, V-shaped movement using the inside edges of the skates.

THROW

A pair skating element in which one skater assists another skater in leaving the ground at the beginning of a jump.

TWIZZLE

A single-foot rotation or rotations that carry the skater forward.
