

Lucy-Anne Richard, PhD, Laboratory Director

Chemical Analysis

Patient Name: Broussard, Celestine
Patient ID: 17-4386
Chain: 21663
Age: 34 Y
Gender: Female
Workorder: 02465591

Source:

Traces of purple liquid residue obtained from subject's teeth, gums, tongue, and upper esophagus for Tox Kit 001.

Positive Findings: DATURA??

<u>Compound</u>	<u>Result</u>	<u>Units</u>	<u>Source</u>
Ethanol	Positive	ng/mL	001
Acetone	Positive	mcg/mL	001
Thujone	3400	ng/mL	001
Atropine	2190	ng/mL	001
Scopolamine	1020	ng/mL	001
Hyoscyamine	1910	ng/mL	001
Noratropine	10	ng/mL	001
Meteloidine	5	ng/mL	001
Norscopolamine	12	ng/mL	001
Aposcopolamine	7	ng/mL	001

Testing Requested:

<u>Analysis Code</u>	<u>Description</u>
4013A	Postmortem Toxicology — Foreign Substance Found

Specimens Received:

<u>ID</u>	<u>Tube/Container</u>	<u>Volume/Mass</u>	<u>Miscellaneous Information</u>
001	Green Vial	1.47mL	Transparent, purple tint

All samples/weights are approximations.

Specimens received from Ninth District C.O. on February 21.
