

**THE
LOURDES
GROUP**

URBAN RENEWAL DIVISION

??????

Carol: Sorry to rush the approval. I had to
 move this meeting because $2F_y + R + 4NE + 5NJ_i + 's$
 $1BN_m S_g + 3xZ + ToR$ pushed us back by an hour.
 I'm sure that's not a problem for you. After all, I
 could always $5FdGg \ 2FgQ \ 6X_y + 7Te$
 if you're $C + 2F_yLe + 1Dc \ 5Ti + 1Tq \ 2K + 3Fk + D.$
 I'll give you a hint: your pin is a $2dc + 1qq + 3b + 4p$

AN OLYMPIC OPPORTUNITY:

Revitalizing Three Pines, Colorado

PROBLEM & OPPORTUNITY

Scenic Three Pines, Colorado, was founded in 1878 by westward-bound copper miners. With soaring vistas of the Rocky Mountains and old-growth pine forests, it is now known for producing America's finest ice skaters.

THE PROBLEM:

While voted #34 on the list of "America's Nicest Small Towns" by Now Go! magazine (2019), Three Pines is economically stagnant. Struggling mom-and-pop shops line its few commercially zoned streets, and for all its beauty, Three Pines feels trapped in the past.

THE SOLUTION:

Focus on Three Pines' own authentic identity as a world-class ice skating capital. By rebranding the town as "America's Ice Rink" to a global audience of tourists, Olympic-level ice skating can become its biggest tourism draw and generate untold new revenue sources.

VALUE PROPOSITION

With influx of investment capital, new businesses, jobs and tourism giving a new face to Three Pines, the generational residents whose underperforming businesses do not draw these new tourists will gladly sell their commercial and residential properties to The Lourdes Group and its subsidiaries for far below market value.

All properties located in Three Pines are situated on a mountaintop, surrounded by the Rocky Mountains on three sides with the fourth side facing the Red Maple Majestic Overlook. Put simply, there are no properties in town without million-dollar views. Yet somehow the highest price paid for a residential home in Three Pines' entire history sold last year for a mere USD\$1.3M.

SECRET SAUCE

The key to our Three Pines revitalization strategy comes from its international reputation as a training ground for Olympic ice skaters and home office of the American Skating Association (ASA).

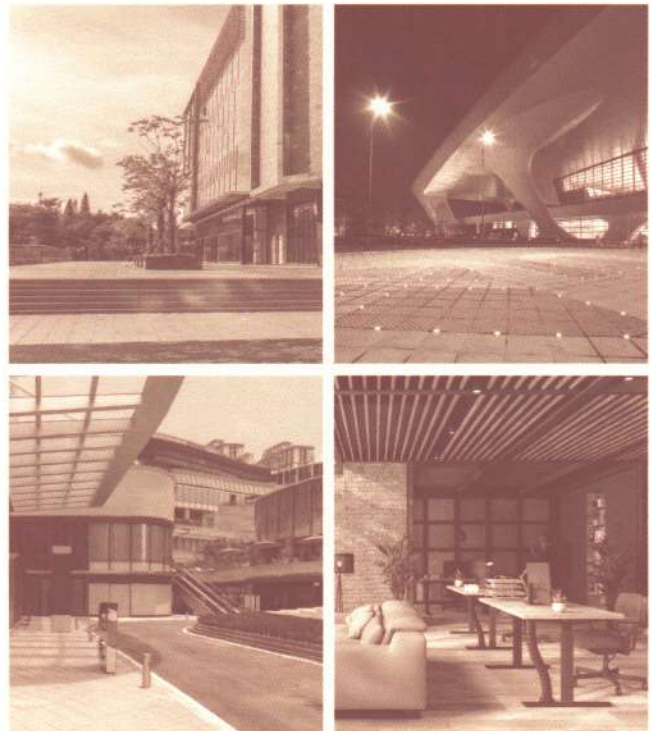

The ownership of the Three Pines Ice Rink, founded by ASA charter members Tom and Cary Hart, looks to the fiduciary support of The Lourdes Group as the centerpiece of Three Pines itself.

MARKET OPPORTUNITY

Redesigning and renovating the Three Pines Ice Rink as a tourism destination for Olympic hopefuls, ice skating enthusiasts and casual tourists alike. The new center will feature:

- Public entertainment complex that can function as large-scale team sports and AAA concert venue.
- Office space for startups, both private and co-working spaces.
- National ASA office and the American Museum of Ice Skating.
- FUTURESKATE!, the ASA's official mentorship program for the next generation of competitive ice skating's star athletes. Facilities will feature educational space, training facilities and dormitories.

Surrounding the complex on both sides, ground will be broken on two eco-friendly hotels to house visitors to the center while they enjoy the heart of American ice skating and spend tourist dollars in local businesses year-round.

MARKET APPROACH & STRATEGY

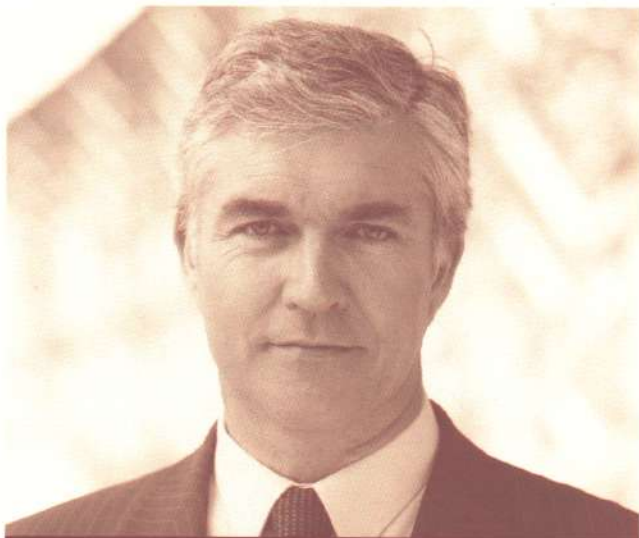

With our property-forward approach, synergy with other local businesses is more easily facilitated, encouraging complementary relationships versus competitive ones.

And that's to say nothing of the largest cash crop of the twenty-first century: the miraculous CANNABIS, now legal in Colorado for recreational use.

Any veteran investor with vision would see obvious opportunities here to purchase Three Pines outright and reconfigure its assets for maximum shareholder satisfaction in as little as a five-year timeline.

Parker Desmond Quail,
SVP — Legal Affairs

Douglas Bacon-Lourdes,
SVP — Systems Design

NEXT STEPS

Our Team is hard at work running financial simulations and leveraging its global network of real estate and commercial partnerships to manifest The Lourdes Group’s vision for a twenty-first and twenty-second century Three Pines. Projected returns thus far are very promising.

OFFER

The Lourdes Group's vision for Three Pines places ice skating history and culture at the center of its urban planning vision. Essential to this astronomical financial leap is secured, titled ownership of the Three Pines Ice Rink by The Lourdes Group.

The Corporation is prepared to purchase the Three Pines Ice Rink and the adjacent undeveloped plots owned in its trust for the cash price of \$11.75M.

In accepting this offer, The Lourdes Group will retain skating star Harrison Campbell as public face of the Three Pines facility, alongside several current administrators, for a term of at least ten years. A percentage of the profits generated by this new facility will be placed in a trust for members graduating from the FUTURESKATE! program.

All terms above are subject to change pending contract negotiations.

I haven't changed my mind. Frankly I would appreciate some gratitude, considering how much you stand to benefit from this. Linford would never have agreed to this meeting without my input.

I'm hardly the only one benefitting. That little nonprofit of yours won't be forgotten.

I'd certainly hope not.

By the way, why so much interest in working with HC?

Mutual benefit.

The child is a menace. He's been ruining my mornings lately with his ghastly choice of warmup music. Making the rink sound like a discotheque full of malfunctioning machinery.
